

Collaboratively Competitive  
Mixtape-Making  
for 3-6 DJs in 45 minutes

64 Song Cards  
28 Hype Cards  
8 Vibe Cards  
4 Public Goal Cards  
6 Player Screens  
1 Lead Player Cassette  
100 Hype Tokens

Make and fulfill requests. Lay down tracks.  
Can you out hype the competition?

1

Request a genre based on  
your private hype cards or  
the public goals.

My mixtape needs  
some metal!

2

The other DJs recommend their  
best metal or that any song card  
that they think might entice you.

I don't have metal, but  
adding three hype to this  
hip-hop song might do the  
trick!

3

Pick your "favorite" song based on matching icons  
and added hype, then add it to your mixtape.

The DJ whose song you picked gets to pick from  
what is left, and leads the next round. Picking con-  
tinues until the last DJ to get picked adds a song  
from a shared hand.

4

The DJ who earns the most hype through public and private goals is the champion and gets  
control of the stereo for the rest of the evening!
